DETAILED ACTION

Election/Restrictions

1. This application contains claims directed to more than one species of the generic invention. These species are deemed to lack unity of invention because they are not so linked as to form a single general inventive concept under PCT Rule 13.1.

The species are as follows:

- **Species 1 of Figures 1 and 2** (wall panel with recesses on one side)
- **Species 2 of Figure 3** (wall panel with recesses on one side joined to an identical wall panel with a large pillar in the middle)
- **Species 3 of Figure 4** (wall panel with recesses on both sides in an alternating pattern)
- **Species 4 of Figure 7a** (wall panel with a trapezoidal shaped recess on one side)
- **Species 5 of Figure 7b** (wall panel with an I-beam shaped recess on one side)
- **Species 6** (form locked wall panel with a second identical wall panel and pillars in between)
- **Species 7** (form locked wall panel with installation channels)

Applicant is required, in reply to this action, to elect a single species to which the claims shall be restricted if no generic claim is finally held to be allowable. The reply must also identify the claims readable on the elected species, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered non-responsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

2. The claims as best understood are deemed to correspond to the species listed above in the following manner:

- Species 1 – Claims 1, 2, 5, 6, 8, 10-14
- Species 2 – Claims 1, 2, 7, 10-13
- Species 3 – Claims 1-4, 9, 10-13, 15
- Species 4 – Claims 1, 2, 10-13, 18-20
- Species 5 – Claims 1, 2, 10-13, 18-20
- Species 6 – Claims 1, 2, 10-13, 18-20, 22
- Species 7 – Claims 1, 2, 10-13, 17

The following claim(s) are generic: independent Claim 1.

3. The species listed above do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, the species lack the same or corresponding special technical features for the following reasons: (see discussion above regarding differences in species).

4. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the

application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Charissa Ahmad whose telephone number is (571) 270-5220. The examiner can normally be reached on Monday - Friday 7:30 am to 5 pm (alternate Fridays off).
